Notice (WhatsApp):

JAI HIND

With the mango season approaching, we would like to invite you to participate in an exciting activity - preserving the seeds of the mangoes you consume at home. We plan to use these seeds for planting during the upcoming rainy season in our adopted area.

We kindly request that you collect and store the seeds in a cool and dry place until the rainy season arrives. Upon the arrival of the rainy season, we will provide further instructions on how to plant the seeds and take care of the saplings.

We appreciate your participation and look forward to making a positive impact on our environment through this initiative.
