Minutes of the meeting :- Malware & Emergency threats in Cyber Security.

There was an online meeting held on Zoom Platform.

1st Meeting on 3rd January,2024

- Volunteers should follow the instructions.
- Volunteers were given some basic information about the activity.
- The volunteers were guided by the rules and regulations

Report: Malware & Emergency threats in Cyber Security.

Event: Malware & Emergency threats in Cyber Security.

Date: 4th January, 2024.

Objectives: To enhance cybersecurity preparedness by providing comprehensive insights into malware and emergency threats.

Highlight: The NSS volunteers of S.M. Shetty College of Science, Commerce and , Management Studies, Powai participated with Students' Council on the session of Malware and Emerging Treats on Cyber Security. This comprehensive report addresses key cybersecurity challenges. It includes a thorough examination of malware trends and delivery methods, highlighting the importance of identifying vulnerabilities. The exploration of emerging threats emphasizes the analysis of sophisticated risks and their diverse impacts on sectors. Investigating common attack vectors, such as social engineering, underscores the need for vigilance. The report also emphasizes developing effective incident response plans to minimize the impact of malware and emergencies. Advocacy for collaborative defense efforts and partnerships to share threat intelligence is a key focus, alongside promoting ongoing security awareness and education. Regulatory compliance is highlighted for fortified defenses and cybersecurity resilience. It delves into evaluating advanced technologies, including AI and machine learning, for proactive threat detection. Encouraging global cooperation to address cross-border cyber threats is emphasized, along with stressing the importance of continuous monitoring and a proactive approach to adapt strategies to evolving threats.

Total Number of Volunteers: 05
