The floors were evacuated one by one. And the volunteers were instructed to guide all the people to the staircase area and also to manage the crowd and the small students. The alert was given by "Fire Fire" then the alarm was rang. All the people started moving towards the ground and all the volunteers were their duty to safely evacuate the people from the building to the ground. Then a small experiment was done and the use of a fire extinguisher was taught on that day to the security staff and the volunteers. It took almost 9-10 minutes to get the building empty.
