Report

The students of SYBMS A & B were taken on a study trip to Maharashtra Nature Park to imbibe experiential learning for the subject Foundation Course-III on Environmental Management & Sustainability. The Parks aims to provide the citizens of Mumbai a quick change to a relatively green and unpolluted area and also to educate the people, particularly children in Ecology and Nature Conservation. 2 guides were allotted to guide students through the park. The park also is also a dumping ground managing the waste received from BMC. Students were oriented through multiple waste management projects handled by Maharashtra Nature Park, manmade forest on a dumping ground. Students were explained about the history of formation of Maharashtra nature park and importance of conserving nature. Students got an opportunity to study different species of plants, butterflies, insects, Butterfly Garden, Astral Garden, Medicinal plants, Plants of Ficus family, Few species of birds, Rain water harvesting, Vermicomposting, Mosaic containing five elements (pancha tatva). Students were explained about the importance of each plant and the need to conserve the plants. Students had a great experience throughout the trip and expressed gratitude for organizing the trip. Students are enthusiastic to be a part of more such field visits in future.

No of students participated- 50 (25 males and 25 females)
