Report: Sapling Making from Eco-Brick

Event: Sapling Making from Eco-Brick

Date: 19th September, 2022

Objectives: An initiative of reusing the plastic bottles in the form of sapling holders and from which we can save the environment.

Highlight: The NSS Volunteers of S.M. Shetty College of Science, Commerce And Management Studies, Powai conducted an activity of sapling making. In this activity volunteers have to make the sapling holder from the home and bring it. From this we are making the people aware about the environment and the used plastic bottles are reused by this medium. This is a nice opportunity to showcase the creativeness in the volunteers. This activity gives a unique message to the society and makes them awake to try something environment friendly.

19th September, 2022	Feedback received on all the volunteers and participants was positive and some unique topics were introduced. Suggestions were received regarding conducting more such events in the future. Please add some more events such as Reusing the coconut shell and making some innovative things with it .	To save the Environment and more such events to protect them.
