Objective & Report - Earth5R

Objective: The moto is to collect the waste that is thrown on the plants and separate the waste and reused it. To create new things that are used in our day to day life.

Report: The NSS unit of Bunts Sangha's S. M. Shetty College of Science, Commerce & Management Studies, Powai celebrated this year's friendship day in a very unique way with our mother nature. In collaboration with the EarthSR team our unit took an initiative to clean up Powai Lake. The event started by 8:30 am in the morning on 5th of August, 2018. Our volunteers along with the Earth5R team collected all kinds of waste in which the major portion was covered by plastic. There were two kinds of plastic: recyclable and non-recyclable. The Earth5R team also made it a point to maintain hygiene so they provided our volunteers with gloves. Usually when people go out on cleanliness drive they end up cleaning only the main roads or roadside but this team made it to edges of the lake covered surface area plants where people tend to throw away waste since no one is bothered to look after that area. The team didn't end their day by just collecting the waste but they also segregated and separated the recyclable and non-recyclable plastic. The Earth 5R team uses this recyclable waste to create new things that are used in our day to day life. Total Volunteers participated 37.

"We often forget that we are nature. Nature is not something separate from us. So when we say that we have lost our connection to nature, we have lost our connection to ourselves." Andy Goldsworthy
