### **Objective & Report - Eco Friendly Ganesha**

**Objective:** To create awareness and protection of environment and humans from harmful effects of chemicals used in making Ganesha idols. To protect the environment from waste.

**Report:** The NSS Unit of Bunts Sangha's S. M. Shetty College of Science, Commerce & Management Studies, Powai conducted a one day workshop on how to make eco friendly ganesha idols on 11th of August, 2018. This Ganesh Chaturthi either buys a Ganesha that is made of clay or makes one yourself at home. Since going green is the new mantra, this idol will be zero in chemicals, plaster of paris, plastic, thermocol (polystyrene) and other harmful products. The event was initiated by Times Green Ganesha powered by Maharashtra Pollution Control Board. The session was under the guidance of Miss Vijayalaxmi from Times of India. Students of all the departments were welcomed for this session. The session was attended by 39 students. The session witnessed 35 beautiful ganesha idols which was a blessing for all of us and that would not harm the environment at any cost. "We need not protect the environment, but create a world where the environment does not need protection."
